% Present (Max)	0.030	1.00	1.50	0.040	0.015	10.50-12.50	0.50

1.4003 stainless steel (also known as 3CR12) is a utility ferritic stainless steel offering an excellent combination of corrosion resistance, strength, and cost-effectiveness. It is widely used in structural, transport, agricultural, and industrial applications where durability and longevity are essential.

The Westgate Group holds substantial stock to support immediate supply and ongoing production requirements.

Note: Values are in accordance with EN 10088 specifications. Actual mill certs available upon request.
