

DC01

W Nr. 1.0330

Chemical composition	C	Mn	Si	P	S	Fe
% Present (Max)	≤0.12	≤0.60	≤0.30	≤0.045	≤0.045	Balance

DC01 is a cold-rolled, low-carbon mild steel widely used for deep drawing and forming applications. It offers excellent ductility, good surface finish, and consistent thickness, making it ideal for automotive panels, household appliances, and general engineering parts. DC01 is supplied in the annealed condition and can be painted, coated, or further processed for specific applications.

Note: Values are in accordance with EN 10088 specifications. Actual mill certs available upon request.
